

# Join Robert Half Technology at the February HDI Los Angeles Chapter Meeting

## Etiquette @ Work

*A guide to modern business manners  
for IT Professionals*

Whether you realize it or not, people pay close attention to business etiquette, from how you shake a person's hand to whether or not you remember to turn off your cell phone or PDA at a meeting. Good etiquette adds to your overall credibility as a Help Desk Professional. On the other hand, poor etiquette can hurt your professional relationships. Please join the HDI Los Angeles Chapter and Robert Half Technology on February 13th to examine the many areas of business etiquette in the IT workplace, including networking know-how, meeting manners, dining decorum and more.
